

EV Parent Partnership News

September 30, 2019

Welcome to New Families!

Welcome to Parent Partnership. Our #1 goal is helping our families be more successful in teaching your children. If you have questions, please ask!

Super Start!

Thanks to our families for your help in registering and beginning our On-site classes. Our SSPs have gotten the classes off and running quickly because of their enthusiasm and preparation. We're fortunate to have kids that get to learn the things they're interested in and teachers who get to teach the classes they love!

Communication

We frequently hear that someone didn't get enough information or didn't get it soon enough. We're always trying to get the information to everyone in time for it to be useful. You'll get a link to a newsletter every month; just like this one. Please click the link and read it. We try to put the important stuff you need in it, so you know what you need to know! If you don't click the link you won't see what we sent. If you're not hearing anything from us, it's more serious. This means we don't have your correct email address. Sometimes parents believe they'll come back and read the message but don't. That makes it *really* hard for you to learn what you need to know!

Update Your Information- Please!

If you have changes in your contact information please let Lori know. We need your current phone number, address, and email. Please keep us informed of any changes!

Office Procedures

Remember that we require any parents or guardians to sign in and sign at the front desk when you come to our school. Thanks for helping us keep our kids safe.

ALEx Update

For our returning families, thanks for your work in plodding through a new information system. Our teachers learn new features and processes every day- so don't be discouraged. We're in this together! For our new families; we apologize for not being fluent enough to get you all of the answers you need to work in ALEx. We'll get there though!

SBA Test Results

Later this week our families with students in grades four through nine and grade eleven will have test results mailed to your home address. Your Cert Teachers will spend some time in the near future going over the *Smarter Balanced Assessment* results with you. The results will show you where your kids were performing in English/Language Arts and Math. You'll get to see where your teaching efforts are paying off and you may find which learning targets need more work. Feel free to contact your Cert with any questions.

Picture Day

Don't forget that Tuesday October 1st is **School Picture Day!** Students with Tuesday classes will get escorted to the gym for their photos. If your student doesn't have classes on Tuesday you can go directly through the playground gate to the gym between 8:30 and 11:30. We'll have an adult there to check you in.
